Hiring of Design Specialists for Product Development Manila FAME October 2020

RATIONALE

For over three decades, Manila FAME, has nurtured and promoted Philippine manufacturers and bannered the Philippine brand of craftsmanship in the global market. Through the Manila FAME, CITEM has established the country's image as the premier destination for quality export products and services, anchored on its mandate to develop, nurture, and promote globally competitive small and medium enterprises (SMEs), exporters, designers, and manufacturers. Taking inspiration from the rich cultural and material heritage of the Philippines, Manila FAME tells the stories of the Filipino artisans – how they utilize natural and indigenous raw materials to create products of ingenious design and craftsmanship. It continues to set the bar for creativity and craftsmanship and aims to convert more of its stakeholders towards innovation as we cross the 4th industrial revolution.

Amidst the price war among ASEAN countries, the Philippines has successfully created a niche in international sourcing circles as a reliable source of export products competing with quality, value and reliability. The Philippines remains a hub for design which attracts buyers of special lifestyle items and the contract market. Yet, with the disrupted buying patterns and dwindling buyer attendance across trade fairs globally coupled by volatile markets, Manila FAME's trade fair model is being challenged to adapt, evolve and survive. Hence, the show is adopting another framework with the hope of growing while strategically classifying its participants into four major categories namely Signature, Sourcing, Neo and Artisan to satisfy the needs and sensibilities of the show's audience.

In support of this reimagination of Manila FAME is a strategic effort to weave the product development program seamlessly from overseas trade fairs targeted by CITEM to its signature event Manila FAME which shall be the culmination of its showcase.

This strategy addresses the need to showcase new products designed with the buyers in mind. Specifically, these newly developed products will satisfy the unique tastes of buyers coming from completely different markets while staying true to the traditions of Filipino craftsmanship of Philippine manufacturers and exporters.

Implementing this strategy requires the services of design experts who will be able to develop a holistic product collection with consideration to the narratives for Manila FAME and insights on the target markets of Philippine lifestyle products in preparation for Manila FAME October 2020.

GENERAL OBJECTIVES
