TERMS OF REFERENCE

HIRING OF PHOTOGRAPHER FOR #TAGLAYPINOY CONTENT DEVELOPMENT PROGRAM (BATCH 1)

I. BACKGROUND

Anchored on Department of Trade and Industry and Office of Congressman Christopher V.P. De Venecia's mission to promote digitalization among MSMEs, different agencies and Local Government Units (LGU) within the department-initiated programs that will ensure that Philippine enterprises are able to pursue a path towards innovative tools and processes that will make them competitive both in the local and international market.

CITEM for its part, spearheaded a Digital Trade Community Platforms (DTCP) for the home, fashion and lifestyle sectors, food and Creative Industry, eponymous to its signature show Manila FAME, IFEXPhilippines and CREATEPhilippines.

The DTCP, launched for the three (3) sectors in 2020, are online platform with provisions for stories via Touchpoint, engagement features for exhibitors and buyers, content for learning opportunities, product and brand promotion, and social media integration. As an online tool, it is imperative for the platform to be updated with fresh, relevant, and relatable content that is supported by a rich archive of visual materials.

This initiative can be done not only for CITEM's supported exporters, but also to other MSMEs under the purview of other DTI agencies. In its capacity and content development experience, CITEM is collaborating with other government agencies to be able to increase the competitiveness of our MSMEs especially as enterprises maximize the opportunities online.

II. RATIONALE

To maximize the advantages of online content such as product catalog, stories and company profiles available on **fameplus.com**, **IFEXConnect.com** and **Createphilippines.com**, CITEM engaged with other government agencies and business support organizations to encourage exporters and MSMEs to go digital. Seeing the challenge that a lot of exporters do not have marketable digital assets; the agency extended its Content Creation program to partners and their MSMEs in order to provide professionally made content that can be used not only on the CITEM's platform but in the MSMEs' own digital promotion endeavors.

Therefore, CITEM in cooperation with the Office of Congressman De Venecia, the Regional Operations Group (ROG) and the Local Government Units (LGUs) launched the TaglayPinoy Program which aims to enhance the competitiveness and contribute to the digital transformation of MSMEs, by providing quality content which can be used by the qualified beneficiaries in their online promotional initiatives.

CITEM as the project proponent, will invite, orient, screen and approve the 110 MSMEs who will be the beneficiaries of this project based on agreed criteria. In addition, CITEM will provide the necessary support to this project by handling overall implementation of the creative online requirements which include production of product photos and copywriting requirements for company profile and product descriptions. CITEM shall have the full ownership of the output and shall hold exclusive rights to the materials. As part of the project deliverables, the output from this project will be uploaded in microsites which will be part of CITEM's digital platforms.

Given the lack of manpower and current workforce set-up of creatives in CITEM, the Communications and Creative Services Department (CCSD) is not yet capable of executing the content creation requirements simultaneously. Producing profile pages for MSMEs coming from at least **22 districts** from Luzon, Visayas, Mindanao will require a highly technical production workforce. Hence, hiring an oversight professional team

with a wide network of suppliers and creative background will be crucial in producing the abovementioned content requirements.

III. OBJECTIVES

- Identify and support TaglayPinoy beneficiaries through content development services.
- Create visually compelling photos of products to be used not only on fameplus.com, IFEXConnect.com and Createphilippines.com but in their own digital and promotional networks, including but not limited to: social media, e-commerce sites, B2B platforms, Overseas Trade Fair digital/hybrid participations, etc.
- Increase the number of home, fashion, and lifestyle, food and Creative Industries MSMEs to be onboarded in microsites which we embedded in CITEM's digital platforms.

IV. SCOPE OF WORK AND DELIVERABLES

Photography services of up to Fifty (50) companies from the home, fashion, furniture, home décor, lamps and lighting, fashion, beauty and wellness, holiday/seasonal décor, food and Creative industries sectors with the following requirements:
