### I. Rationale / Objective

**IFEX Philippines** is the country's biggest business-to-business and export-oriented international trade show for food, beverage, and ingredients to be held at the World Trade Center, Metro Manila on May 22-24, 2025.

This year, IFEX will be mounting various special settings to showcase the best of the Philippines as a source destination of quality products and services. The successful execution of IFEX Philippines 2025 requires visually impactful and structurally sound booths and special settings that effectively showcase participating region, brands, product, and government initiatives

Engaging a professional booth/pavilion contractor ensures that designs are compliant with safety standards and delivered on schedule. Experienced contractors bring technical expertise, quality craftsmanship, and the ability to manage complex logistics, enhancing the overall experience for exhibitors and visitors.
